## Funcionamiento Functioning

El **auta llave COMPACT** es un control de acceso codificado que se puede instalar de forma individual o integrado en una placa de portero o video portero.

El control de acceso codificado permite hasta 300 códigos diferentes, que el usuario puede definir usando códigos de 5 cifras. Si el usuario desea un código de 4 o menos cifras se puede introducir un 0 delante.

El sistema, permite el accionamiento desde el interior mediante un pulsador auxiliar y detectar, si se instala un sensor en la puerta, si el acceso se abre de forma incorrecta o forzada.

COMPACT Auta key is an access control that can be installed either individually or integrated in a door and video door Auta panel.

The codified access control lets till 300 different codes. The user could choose between codes of 5 digits. If the user wants to use a 4 or less digits code a 0 before the code can be introduced.

The system lets the activation from inside using an auxiliary push-button or detect, if a door sensor is installed, whether the access is incorrectly done or forced.

## Descripción Description

**PULSADOR AUXILIAR (RELE 1)**  
AUXILIARY PUSHBUTTON (RELAY 1)

**SENSOR PUERTA (NA)**  
DOOR SENSOR (NO)

Relé 2

**RELE NA (1A)**  
RELAY NO (1A)

Relé 1

**RELE NA (1A)**  
RELAY NO (1A)

**SALIDA TENSIÓN 12Vca (1A)**  
OUTPUT TENSION 12Vac (1A)

12 Vac  
24 Vdc

**ALIMENTACIÓN 12\_24 ca\_cc**  
SUPPLY 12\_24 ac/dc

1

**Salida de tensión HABILITADA**  
Output tension ENABLED

2

**Relé 1 HABILITADO**  
Relay 1 ENABLED
