

Audio and Video door entry systems

KIT 2W

# QUICK

technology, minimalism and connectivity

With the new Quick 2H Wi-Fi system, Auta combines simplicity and high performance in a single device. Thanks to the easy installation using 2 non-polarity wires, remote management from your mobile terminal and the quality of materials, such as aluminium and glass, Quick becomes the best ally to equip your home with elegance and technology.

- > 2 wire system without polarity
- > Tactile and accessible system
- > MiFare proximity access control
- > Remote management through Tuya universal APP
- > Multiple high-tech features

APP TUYA SMART  
**QUICK Wi-Fi**

The Auta Quick 2H Wi-Fi system integrates the function of managing access to a home online from mobile devices using the Tuya SMART APP for iOS and Android, available on Google Play and Apple Store for free.

The application allows you to receive calls to a property remotely, interact through the street panel and approve access with ease and security, without the need for complex installations or additional devices.

Connect the Auta Quick 2H Wi-Fi monitor, link it to your home's Wi-Fi network, download the Tuya SMART APP, enter your credentials and start enjoying the freedom of a new, connected, mobile and easier era.

### FREE APP

Available for iOS and ANDROID
