FUTURE, COMMUNICATION & DESIGN

GATHERED BY STEEL.

STEEL

xenia

The evolution of steel transports us to the future of communication, a future full of design, technology and solutions tailored to each need.

INOX xenia is steel. Auta is evolution.

STEEL xenia   auta	Video	Audio
New STEEL xenia digital panels, made of 2.5 mm thick 316L stainless steel, with security screws and completely waterproof IP65 steel buttons. 5 mm thick polycarbonate glass.	Any configuration is viable thanks to its five sizes with multiple combinations that adapt to any need and space. Attaching panels in parallel is a quick and simple action using the flush-mount or surface boxes for all systems.	For those who seek simplicity without giving up quality and design. From push-button call systems, code call systems and even hybrid Alphanumeric call systems, where we enter the floor and press the letter. All available in our STEEL xenia range.
